

# Better Future

[www.GetBetterFuture.com](http://www.GetBetterFuture.com)

---

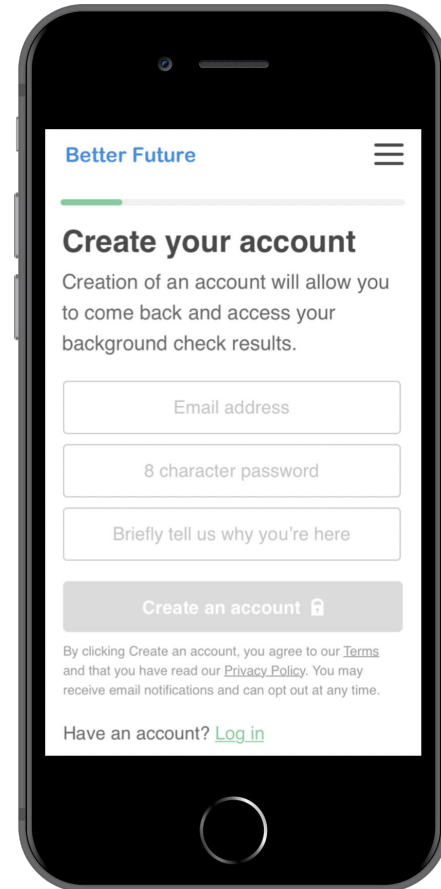

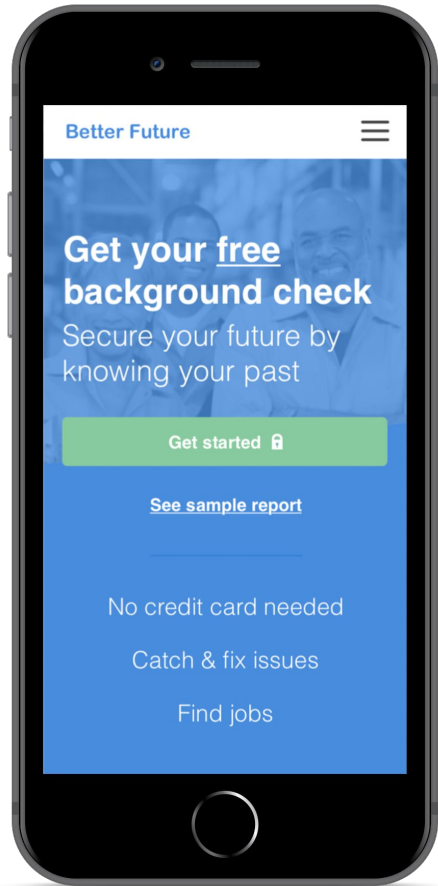

# What is Better Future?

- The **first and only place** online where someone can see their background check, 100% free, no catches.
- Created to finally give everyday people **access to what employers are seeing on their background check**, before employers see it.
- Created by Checkr Inc. who has run **10,000,000+ background checks for 13,000 reputable companies** and raised money from Google Ventures

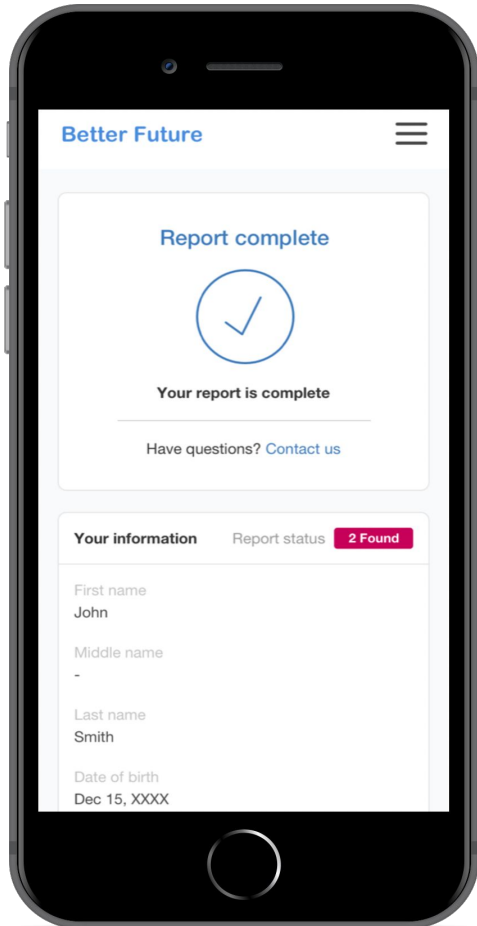

# What is the problem?

- **People don't know** what's on their background checks until an employer has made a decision about them
- **There are often inaccuracies** on a background check that **can prevent or delay you getting a job**
- Various states have different laws about what can appear on your background check, making it even more **confusing**.
- People with criminal records don't **know what companies will hire them**

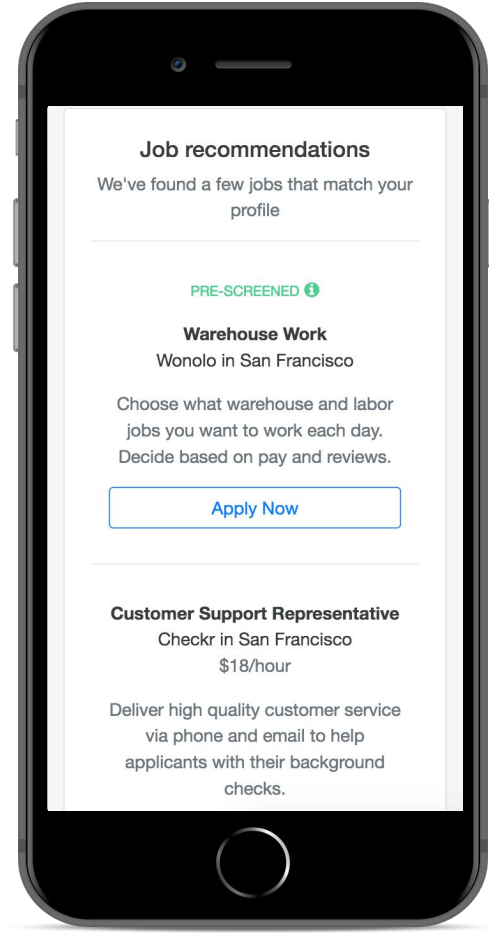

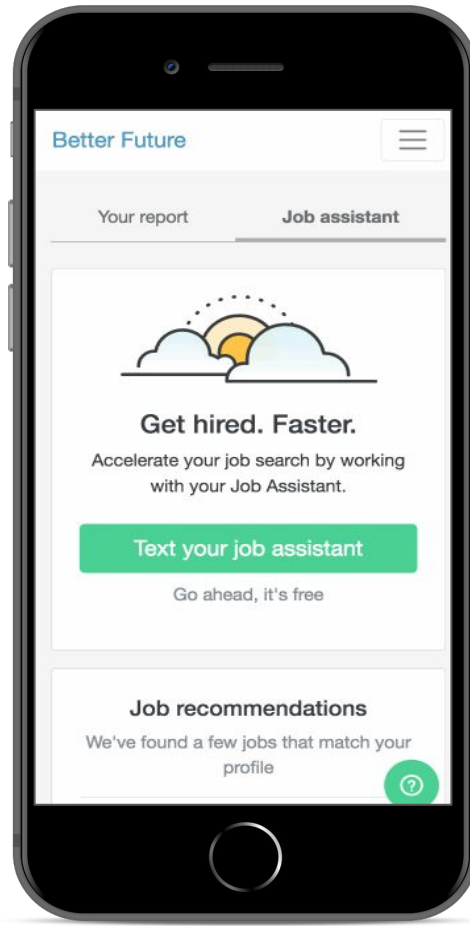

# Sign-Up at GetBetterFuture.com

# Get Your Report

# Find A Job

# Services Better Future Provides:

- We provide a **7-year lookback background check** that is similar to background checks run by most employers
- You can **dispute** inaccurate charges
- We are piloting a **program to help members find pre-screened jobs** (how we make money).
- We provide this **100% free of charge to members**, no catches

# How we can partner with you?

- Help people understand what's on their background checks during new client intake
- Share this service with your clients and partners in person, and/or on the web (website, newsletters, social media, etc...)
- If you know employers who are looking for entry level work, we'd love to get them on Better Future
- Let me know how I can make Better Future even more useful for your clients
